President Bob Baugh, of the Birmingham baseball club, flung down the gauntlet this spring. President Callaway of the local club picked it up. Mr. Baugh's challenge was backed by the commissioners and civic organizations of Birmingham. The mayor and civic organizations of Atlanta have answered.

Birmingham is in for another drubbing and this time the local fans expect to make it so conclusive that there will be no question in any one's mind.

One night Gilbert chanced to find the transmitter down from the hook on the telephone in his office. He picked it up, called into the mouth-piece and heard a feminine voice—very sweetly—respond over the wire.

"Silly," he asked.

"Uh-huh," came the dainty reply.

Well, the next night he was easily guessed. Thirty-six hours later the two met by appointment. Within thirty-six days a love affair had begun. Within six months he popped the question. Within six days they were married. Within six more days a horrid newspaper man learned the story.

Calumet, Mich., April 12.—It was said tonight at the Western Federation of Miners' district union office at Hancock that returns on the copper strike vote were incomplete and that no figures would be available until tomorrow. At the headquarters of Ahmeek the local vote was given as 1,257 against calling off the strike and 361 for ending it.

No figures were given at the Calumet headquarters, but it was said the vote throughout the district was heavily for continuing the strike. A majority of the members voted. It was

Consequently the aldermanic board voted the proposition down, and decided to spend about \$150 or \$200 for this purpose, decorating the building in bunting and flags, instead of with lights.

Now, Mr. Moncrief advances the suggestion that the citizens of Atlanta

Often in the course of a life time a decision concerning a certain policy or course of action becomes imperative. In the correct solution of this problem lies, to some extent, the measure of success to be attained. A moment's indecision when the time of quick action is at hand, hesitations and procrastinations, advantages and disadvantages too often means the difference between success and failure. Regret must ultimately be the lot of those who live in their yesterday's easily contemplate what might have been.

A real old-fashioned southern dinner on Tuesday, May 12, and they have asked us to suggest some place within trolley distance of Atlanta where they can get it. They would like to get out into the woods or to some large park, where they can lounge around for the afternoon, returning to Atlanta in time for the parade in the evening. They are anxious to have a good dinner, and would be willing to pay up to \$1.50 a plate. They would have 100 to 150 persons there to eat it. Tuesday. About the time Mr. Lillo is making his report to the president, the Mexican rebel leaders will be meeting for the first time since the days of the Madero revolution, and on this conference much is believed to depend. Officials here think that a face to face talk between Carranza and Villa will result in a clearer understanding concerning the rights of foreigners in Mexico, and especially their privilege of pressing claims through American consular officers.

for the export to America in the interests of United States marines. Officials declared, however, that no anxiety was felt over this matter, as assurances had been given that proper preparation would be made.

It was reported tonight that important dispatches had come to the state department from Mexico City. Secretary Bryan said, however, that he had nothing whatever to give out about the matter.

The secretary commented on the absence of press reports from the Mexican capital, and remarked that apparently a rigid censorship was being exercised. He had nothing to say about

vention, especially in the case of Spaniards, exiled from Torreon. Although Carranza has told the department that he is not disposed to interfere with Villa's course toward the Spaniards, there is a frankly expressed expectation that this stand may be modified.

Should the two rebel leaders decide to pay no heed to Secretary Bryan's demand that the cases of all Spaniards be settled on their individual merits the United States will be confronted with a problem of the greatest gravity, since Spain has placed the safety

In discussing the prospects for this year's state campaign, Mr. Harris said the lawyers have monopolized the office of governor long enough and the next administration has problems to solve which call for the experience of a business man. His campaign would

His idea is to lease this property for business structures on long time, requiring the lessees to erect substantial brick buildings, which would revert to the state at the expiration of the lease. Thus the state would secure a much larger amount of revenue than the property now is worth and feel more the owners.

While in the legislature he applied his business knowledge to aid the state. He offered a bill to change the distribution of the fees from oil inspection. Formerly two-thirds of the amount collected in fees went to the inspectors, and one-third went to the State Agriculture census. Mr. Harris' bill, which was passed, gave the fourth to the state colleges and one-fourth to the inspectors. While Mr. Harris would not conduct a speech-making campaign should he enter the race, as now seems probable, he is one of the best hand-shakers in the state. CHRIST IS EVERYWHERE, "Fifth Sunday" Meetings SAYS DR. JOHN WHITE

Addresses Congregation That Completely Filled the Alamo Theater.

"Where is Jesus Christ? I'll tell you. He is here, there—everywhere. Christ isn't localized. He's a supreme vital being that is everywhere. What Alamo Theater is a place of spiritual communion of his presence."

This was the lesson impressed in an interesting sermon delivered at 12:30 o'clock yesterday afternoon by Dr. John E. White, in the Alamo Theater, No. 2, under the auspices of the Baptist Young People's Union. The theater was filled to its capacity to accommodate the congregation.

Dr. White reviewed the crucifixion of Christ. His burial and the ascent. He dwelt upon the havoc that would have been wrought upon the world had Christ remained in the grave and reverted to dust, and told of the inconceivable benefit His ascension had meant to the universe.

During his sermon, the minister related an incident which he said occurred recently in an exclusive club, at which a number of men and women, who were entertaining a visitor, amused themselves by telling risqué stories.

At the conclusion of the stories, the guest of honor was called upon for a similar story.

"Friends, I must decline," he responded. "My conscience forbids and so does my early training. I was bred in a religious home, and my good old Quaker mother, father and sister, I don't know any risqué yarns, and I wouldn't tell them if I did, nor this reason: My mother always taught me that God was listening to whatever I said, anywhere, any time."

"I spoke Dr. White, 'this incident—as countless others—impresses me as a fact of the fact that God is present everywhere.'"

PLAN OUTGOING SALARIES AT OAKLAND CEMETERY

Mayor Woodward Intimates Too Much Money Is Being Spent There.

Mayor Woodward's policy of economy in the matter of salaries of city officials may next deal a hard blow to the payrolls of the cemetery commission. The mayor has thrown out the hint that too much money is being paid employees of Oakland cemetery, and members of the cemetery commission say that the mayor proposes to cut the salary of J. N. Porter, general manager, from \$1,000 per annum to \$1,200.

The commission assembled in the office of Mayor Woodward last Thursday, but because of the nature of engagements the mayor was unable to take the matter up with the members. Then, with the exception of one plan he will outline to the commission when it meets.

Members take the position that the mayor should not practice economy in the cemetery department for the reason that the finance committee in January provided but a meager \$3,000 for all purposes, which is a mere pittance, that amount is not sufficient to carry on the gardening work.

WORKED WONDERS OF UBERIEF

"At First I Had No Faith," Says Mother, "But Soon There Was Such a Change."

Ontario, Va.—Mrs. M. L. Anderson, of this town, gives out the following for publication: "I went to Richmond seeking relief, and tried almost everything in the medicine line, but nothing proved a cure until I tried Cardui, the woman's tonic. I had indignation very bad, and a complication of diseases.

Although, at first, I had no faith in it, I bought a bottle of Cardui, but soon, there was such a change. I was certainly benefited. I felt so different. Then I began to take the medicine in earnest. Now, I can do my work, and I eat and sleep like a young person.

Cardui also cured my daughter of womanly troubles. I keep Cardui in the house all the time. It is a great blessing to all women who need it."

Thousands of ladies have written like Mrs. Anderson, telling of the wonders worked by Cardui in the relief of various forms of weakness and distress, after other remedies had failed to help.

Isn't it likely that you will be helped by Cardui, this remedy which has been in constant successful use for more than half a century? Its record of years of success, in relieving troubles such as your own, is proof that it will help you, too.

Try Cardui.

PLAN IMPROVEMENTS CENTRAL SERVICE

Reported That 2,000 New Fireproof Freight Cars Will Be Secured.

Reports to the effect that the Illinois Central has extensive plans for improving the freight and passenger service of the Central of Georgia railroad were made here yesterday by Chicago yesterday.

The information comes to Atlanta that the Illinois Central has placed an order for 5,000 steel fireproof freight cars for use on the Illinois Central, Yazoo and Mississippi Valley and the Central of Georgia lines. Of the total output of the shops, 2,000 cars will be shipped to Atlanta for distribution over the Central line.

Colonel D. W. Apple, division freight agent of the Central of Georgia, stated yesterday that he knew that the Illinois Central had placed a big order for additional freight cars, but he had no idea that as many as 5,000 would be shipped to this division.

"Excellent movement is being made over the line," Colonel Apple said, "but I don't know anything just now of the exact nature of the improvements."

Just what the Illinois Central will do with the cars is not stated in the dispatches.

DOCTOR AND WOMAN ACCUSED OF MURDER

Pittsburg, April 12.—C. C. Mardis, a Pittsburg physician, and Miss Lucy D. Orr, a nurse in his employ, are charged with the murder of a woman, a year ago, and released on bail. The case is being tried today, and the body of a woman buried a year ago was found in the cellar of the house in which the murder took place.

FOUR PINNED BENEATH OVERTURNED MACHINE

With a Dislocated Shoulder, John Touchstone Frees Parents and Sister.

Jonesboro, Ga., April 12.—(Special.) The automobile of J. D. Touchstone, of Gettella, in some way became unmanageable this morning, tried to climb an embankment about five miles north of Jonesboro on the main highway and turned over, pinning Mr. Touchstone, his wife, son and daughter beneath the car. His son, John Touchstone, although his shoulder was dislocated, managed to get himself and the others from beneath the car, after which another automobile passing brought him to Jonesboro. He was carried to the Jonesboro hotel, where Dr. W. T. Dodd set the dislocation, and he is now rapidly improving.

Mr. Touchstone, wife and daughter left on the 1 o'clock Central train for their home.

While the car was badly damaged, it was brought into town by its own power.

BIG MAJORITY SHOWN AGAINST FREE TOLLS

Washington, April 12.—First returns from a poll Senator Gore is making of delegates to the democratic national convention at Baltimore on the cause tolls issue were announced tonight by Senator Gore.

They showed 83 for repealing the tolls and 17 in opposition. The majority on the repeal has centered largely in declaration of the Baltimore platform for free tolls and two weeks ago a poll taken in the same city showed 75 for repealing the tolls and 25 in opposition.

"Only two states have given a majority against the tolls," said the poll. "Only two states have given a majority against the tolls." Only two states have given a majority against the tolls.
